

# When AI Starts Working for You: Enterprise Strategies and Practices in the Age of Intelligent Agents

## FREE SEMINAR

This seminar examines how enterprises can respond as AI Agents begin to take on real work in business settings. Using OpenClaw as a practical example, it helps participants move from basic awareness to effective application of AI Agents. The session introduces the OpenClaw ecosystem, core agent concepts, deployment options, and key considerations for security and cost control. It also explores practical application ideas for different roles, supporting safe and realistic adoption of AI Agents. The seminar is designed for students, professionals, managers, and entrepreneurs interested in applying AI in real-world scenarios.
