

Training seminar on sustainability transition for fashion and textile industry (III) - Low carbon materials

Free seminar

11 Mar 2026
15:00 – 17:00

Conference hall, 27/F,
CMA Building,
64-66 Connaught Road,
Central

Cantonese

SMEs in fashion and
textile industry

With funding from the “Trade and Industrial Organisation Support Fund” of the HKSAR Government, and the Hong Kong Productivity Council as the implementation agent, the Institute of International Sustainable Development Limited will present the 3rd Training Seminar, focusing on low carbon materials in the fashion and textile industry. The seminar will explore the global trend in low carbon materials, and examine the advantages and disadvantages of various sustainable options, such as organic cotton, regenerated fibres etc.

Participants will gain valuable insights into selecting and applying low carbon materials in their business operations, helping them reduce carbon footprints, improve sustainability performance, and stay ahead in the evolving market. The event also offers a great opportunity to engage with industry experts and peers to further advance the green transformation of the sector.

Register now to secure your place and stay updated with the latest insights!

Collaborating Organisations (in no particular order)
