

Voluntary Carbon Market Standards and Regulations Training Course

FREE

As enterprises increasingly prioritize environmental protection and sustainable development, carbon market and carbon credit trading have become an important way for enterprises to certify reduced carbon emissions and achieved carbon neutrality.

Organized by the HKTIC and implemented by HKPC, a comprehensive "Voluntary Carbon Market Standards and Regulations Training Course" is scheduled to support the Hong Kong industry in staying updated with the latest standards and methodologies.

The first five sessions will be held in April 2025, which will cover the background and policy of the carbon market and carbon neutrality, how to achieve carbon neutrality with scientific carbon targets, internal carbon pricing and carbon reduction measures for high-emission industries, etc. The course will enable you to understand the latest market dynamics and technological trends, as well as obtain practical operational guidance.

Welcome to register now!

Date & Time	Topics	Venue
15 April 2025 1400-1700	Science-based Targets toward Carbon Neutrality
