

## Kick-off Seminar on Biotechnology Innovation and Translation Project

May 21, 2024  
Tuesday  
14:00-17:00

Theatre 2, HKPC Building,  
78 Tat Chee Avenue,  
Kowloon

Cantonese and  
Mandarin

Talents required for the development of the biopharmaceutical industry, include regulatory, research and development, operation and management, etc.

Funded by Trade and Industrial Organisation Support Fund, organised by the HK Bio-Med Innotech Association and implemented by the Hong Kong Productivity Council, the "To improve the competitiveness of local bio-med industry by strengthening its connection with global high-end bio-med industry" project aims to support the HKSAR Government's strategic plan to develop the biopharmaceutical industry, provide a series of complex training for the biotechnology industry in Hong Kong and organise exchange activities for the local biopharmaceutical industry, thereby increasing the local biopharmaceutical industry competitiveness.

The first event of the project, "Kick-off Seminar on Biotechnology Innovation and Translation Project", is scheduled on 21 May 2024. The event will bring together experts from government, industry, academia, research and capital sectors worldwide. They will deliver insightful presentations, engage in discussions about industry hotspots and promote valuable industry exchanges. Limited seats for the event will be offered on a first-come-first-served basis, so please register now!

### Event Content (tentative)

- How local universities' bio-project achieve efficient translation and implementation?
- Discover outstanding biopharmaceutical innovation and translation projects from an investor perspective
- Analyse the mechanism and process of new drug's registration in Hong Kong
