碳中和(減廢)約章 – 啟動禮

Carbon Neutrality (Waste Reduction) Charter Launching Ceremony

2023年12月11日
11 December 2023
時間 / Time: 14:30 - 15:50

隨著減碳成為全球重要趨勢，香港政府公佈《香港氣候行動藍圖 2050》，致力爭取2050年前實現碳中和，而廚餘和廢塑是香港都市固體廢物的最大源頭。為推動餐飲業界邁向碳中和，「星星相惜」餐飲伙伴計劃邀請餐飲業界成為「減碳、減廢夥伴」，並透過簽署碳中和(減廢)約章，承諾執行減廢回收、廚餘管理以及「走塑」的措施。

As carbon reduction is becoming an important global trend, the Hong Kong Government has published the "Hong Kong Climate Action Plan 2020", which strives to achieve carbon neutrality by 2050. Food waste and plastic waste have been the largest sources of municipal solid waste. In order to encourage the Food & Beverage trade to achieve Carbon Neutrality, the FoodSmart Partnership Programme has invited F&B trade to become "Carbon Reduction and Waste Reduction Partners" by signing the Carbon Neutrality (Waste Reduction) Charter, which pledge to implement waste reduction measures, food waste management, and plastic-free measures.

環保園及林·區頒獎典禮
暨環保園展覽
EcoPark and
Y·PARK Award Ceremony
Cum EcoPark Exhibition

2023年12月12日 / 12 December 2023
頒獎典禮 Award Ceremony
時間 Time: 09:15– 10:30

環保園是香港首個專為循環再造業發展而興建的設施，以可負擔的租金為回收業提供長期土地，從而鼓勵業界投放資金，發展先進及增值的循環再造技術。我們將舉行「環保園之友」頒獎典禮以認可和表揚支持環保園經營及發展的機構。展覽將介紹部分環保園營運商的回收服務及環保園的未來發展。

Y·PARK [林·區]位於屯門曾咀，毗鄰新界西堆填區，旨在推動園林廢物的回收並將其轉化為有用物料，減少棄置堆填區及相關的碳排放，長遠實現零廢堆填及促進碳中和。

EcoPark is the first recycling-business park in Hong Kong aiming to provide long-term land at affordable cost to the recycling industry in Hong Kong with a view to encouraging investment in advanced technologies and value-added recycling processes. A "Friends of EcoPark" award ceremony will be held to recognise and appreciate organisations that have helped contribute to the business and development of EcoPark. An exhibition will also be held to introduce the recycling services of some EcoPark operators, and the future development of EcoPark.

Y·PARK is located in Tsang Tsui, Tuen Mun and adjacent to West New Territories (WENT) Landfill. Its aim is to promote recycling of yard waste into useful materials, reducing disposal at landfills and relevant carbon emission, realising "zero landfill" and facilitating carbon neutrality in the long run.
