

FAKUMA 2024 Dissemination Seminar

Free Seminar

17 January 2025
14:00-15:00

Room 120, 1/F, HKPC
Building, 78 Tat Chee
Avenue, Kowloon

Cantonese

Individuals in the mould
and plastic component
manufacturing industry

Federation of Hong Kong Industries has successfully obtained funding from the Trade and Industrial Organisation Support Fund of the Trade and Industry Department to launch the 18-month project "To promote the comprehensive technical competency of Hong Kong precision mould and plastic component manufacturing industry through technical demonstrations in global market". The recent project successfully established the "Hong Kong Pavilion" at "FAKUMA 2024" in Germany, showcasing automatic plastic injection moulding line, precision mould and plastic components. This initiative promoted the technological advancement of Hong Kong's mould and plastic component manufacturers, highlighting their comprehensive technical competency on the international stage.

The seminar will be held to discuss the exhibition outcomes, provide the overview of the "Hong Kong Pavilion", and invite industry participants to share their achievements, market insights, and business opportunities. Through this exchange, attendees will gain a better understanding of the requirements of international suppliers and customers, thereby enhancing the capability of Hong Kong's mould and plastic industries to expand into the global market.

Project Deliverables:

- i. Setting up of Hong Kong Pavilion in the international exhibitions
 - CHINAPLAS 2024 (Shanghai in PRC)
 - FAKUMA 2024 (Friedrichshafen in Germany)
 - CHINAPLAS 2025 (Shenzhen in PRC)
- ii. Compiling the industry directory to provide a comprehensive reference for potential overseas buyers
- iii. Organising dissemination seminars to share the experience and market feedback collected at Hong Kong Pavilion in the international exhibition.

FAKUMA 2024 Dissemination Seminar
